Timber Grades

AB Grade

AB Grade (Standard/Better) is a mixture of A & B-grade timber with planks that are clean and have fewer and smaller knots & features. Heartwood and colour variation in the timber is to be expected and may consist of some checks (cracks across the growth rings), Sapwood and filler. The colour of the filler was selected to complement the oak wood rather than to match it exactly and it may vary from batch to batch.

ABC Grade

ABC Grade (Standard) will have slightly larger knots and features than AB Grade. This grade includes both Sapwood and Heartwood and has a wider range of colour variations in the timber should be expected and may consist of some checks (cracks across the growth rings), sapwood and filler. The colour of filler is carefully selected to complement the oak wood rather than match it exactly and it may vary from batch to batch.

ABCD Grade

ABCD Grade (Character) is a blend of A, B, C and D. This Grade Feature will have more & larger knots and features than ABC Grade. This consists of Heartwood, there will be natural colour variation, Sapwood and filler. You should also expect checks (cracks between the rings) The colour of the filler is carefully selected to complement the wood rather than to match the board exactly and it may vary from batch to batch.

Global GreenTag Certified

Global GreenTag is one of the world's most trusted and widely recognised eco certifications. We have our Clever European Oak collection certified under this ecolabel for a GreenRate™ Level B and PHD HealthRate™ PlatinumHEALTH which means they've completed an independent assessment on human health toxicity risk when using the product and verified our low emissions, along with other environmental achievements verified under the GreenRate™ B1 compliance pathway. The outcome of our PHD HealthRate™ was the best possible because we were awarded a PHD HealthRate™ PlatinumHEALTH for No Toxicity Issues of Concern identified in our products.

GreenRate™ - Level B

We've passed under scheme B1 GreenRate™ Level B. Together with our PHD HealthRate™ PlatinumHEALTH our Oak Collection delivers a total 14 Responsible Product Value (checked November, 2024) points for your Green Star Building v1.0 projects.

Third Party Verified PHD

The Product Health Declaration is a Global GreenTag independent assessment on human health toxicity risk for the use in buildings. It promotes material transparency making clear what chemicals are used down to 0.01% of the product weight and potential hazard exposure risks.

HealthRate™ - Platinum

The HealthRate™ PlatinumHEALTH is the best outcome of the Global GreenTag human health toxicity risk assessment. It means when used in a building there are No Toxicity Issues of Concern identified

Clever features list

Natural-grade timber flooring is a popular choice due to its timeless beauty, durability, and potential to enhance a home's value. It offers a warm, inviting atmosphere and can be more environmentally friendly than other flooring options

Part of the beauty of wood is the naturally occurring unique features, such as variety in colour, texture and grain. Real timber flooring means that there will be no repeating patterns anywhere in your room, with each board unique.

Timber Solutions are suitable for families as they are able to withstand spills that don't sit for long periods of time. Damage can be avoided by wiping up spills quickly.

The wear layer on our Timber Solutions consists of seven layers of UV Cured Lacquer. This protective layer can be sanded and recoated.
